The screenshot displays the PNETLab web interface. At the top, there's a navigation bar with 'PNETLab | Topology' and 'LAB-1'. Below it is a browser address bar showing 'labs.surennetwork.com/store/public/admin/tabs/workbookview?name=LAB-1'. The main content area is titled 'LAB-1' and 'Lab-1 ccna'. On the left, a sidebar shows five thumbnails of network diagrams, with the fifth one selected. The central part of the interface is a large window titled 'QEMU (Win2)' showing a Windows 2 desktop environment. The desktop has a blue background with the Windows logo. Icons on the desktop include 'Computer', 'Recycle Bin', 'Control Panel', 'PUTTY', 'Hyper2', 'Cisco IP Communic...', 'Kiwi Syslog Server Grou...', 'Cisco ASDM', and 'GNS3'. A folder named 'shandian' is also visible. The taskbar at the bottom of the QEMU window shows the time as 6:54 PM. Below the QEMU window, there are some settings or logs, including a section for 'Permissions for Everyone' with 'Full Control' highlighted. The bottom status bar of the PNETLab interface shows the weather as '28°C Light rain', a search bar, and system information like 'ENG IN', '22:24', and '19-08-2026'.
